Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-21 are drawn a method of assisting the diagnosis of cardiomyopathy, myocarditis or both comprising determining a level of brain natriuretic peptide (BNP), fragment of, atrial natriuretic peptide (ANF) or fragment of where an increase in the levels of BNP, ANF or both compared to the level in the control group is an indicator of a symptom of cardiomyopathy, myocarditis or both, classified in class 435, subclass 4.
 - II. Claim 22 is drawn a method of monitoring the effectiveness of a therapy for treating cardiomyopathy, myocarditis or both where a decrease in ANF, BNP or both in two or more samples over the period of time is an indicator of success of treatment, classified in class 435, subclass 4.
 - III. Claim 23 is drawn a method of assisting in the diagnosis of effectiveness of a therapy for treating cardiomyopathy, myocarditis or both where a increase in ANF, BNP or both in the sample as compared to the control group is a symptom of cardiomyopathy, myocarditis or both using specific fragments of BNP and ANF, classified in class 435, subclass 4.

Art Unit: 1645

2. Groups I, II and III are related as different methods. They differ because they have different goals, require different method steps, parameters and use different components.

3. Because these inventions are distinct for the reasons given and have acquired a separate status in the art because of their recognized divergent subject matter as shown by their different classification, restriction for examination purposes as indicated is proper. Moreover, in the absence of restriction it would place an undue search and examination burden on the examiner.

4. Applicant is advised that the reply to this requirement to be complete must include an election of invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).
